

21st Century assignment via Email or shared at Google Docs

This assignment is for Brave of Heart, *since* it requires creation of a 21st Century document with text embedded links for deeper & more expanded knowledge than any text document.

You are to create a document similar to the one below (outline form) for a specific topic or specific discipline: LA, M, SS, S... It has to be saved as htm/html not mht to be clickable. It should have at least 16 text embedded links to at least (8) different WWW resources, also a title at top & credits at bottom and a similar background using MS Word or Google Docs. Value of this assignment is it allows students to easily learn much more than any text document.

21st Century Technology for School, Home, Business, Industry

What is the Internet? What is the WWW? What is a Browser? What is your OS? What is your SW?
What is an IWB? What is an iDevice? Connect to a Projector, IWB, DTV... *21st Century Questions!*

Internet Connection: [Internet Browser](#), [Search Engine](#), [Web Sites](#), [Web Page](#)

[Wired Network](#) @ [WirelessNetwork](#) @ [Wi-Fi\(Wifi\)](#) or [3G- 4G \(WN?\)](#) @ [AirPlay](#)
 @ [Hardware](#) @ [Multimedia](#) @ [W3S](#) @ [Digital Images](#) @ [Software](#) @

Mobile Devices: [Tablets](#), [SmartPhones](#), [iPad](#), [iPhone](#) ...

Thomas: Love @ Technology/Mathematics/Science Consultant @ 2013/2014

Here's how: Copy (Select URL then Hold Ctrl & Hit C) url/link you want to include – then Click&Drag word or words you want to make into a clickable link – then click **Insert** at top of page – then click on **Hyperlink** and a box opens where at the bottom you can paste in the url/link you've copied in step above. – then close (OK). The word or words should be **Blue & Underlined** if correctly done. Now Save as... MS Word as htm/html to send via Email. Now, you can attached the HTM document to an Email and students open with Browser!
 @ When changing from MS Word to HTM/HTML alignment messes up if you have not centered all lines! @
